

Pain

Throw The Fight

I'll catch the last train out
In hopes that you're alone
Waiting for me to come crawling back to you

Is this world your own?
Does it feel like home?

Spinning out of control

Out of control

Will I see you?
Will I see you?
We're not alone
We're not alone

Was it worth it?
Was it worth it to see you in so much pain?
So much pain

Every day just feels the same

Does it hurt you?
Does it hurt you to see me in so much pain?
So much pain

Every day just feels the same

Just as the last boat leaves

The sea spreads apart

Thinking that the tide will pull you in

There is a mess to clean

Debris of broken hearts, feelings

Never get back

Never get back

Will I see you?
Will I see you?
We're not alone
We're not alone

Was it worth it?
Was it worth it to see you in so much pain?

So much pain
Every day just feels the same

Does it hurt you?
Does it hurt you to see me in so much pain?
So much pain

Every day just feels the same

It's not over

It's not the end
Bring me closer
to myself again

Was it worth it?

Was it worth it to see you in so much pain?
So much pain

Every day just feels the same

Does it hurt you?
Does it hurt you to see me in so much pain?
So much pain

Every day just feels the same
