

Shine Your Crown

Throw The Fight

Shine your crown

Who made you the king?

All your qualities are dull and weak
Think you're not replaceable?
Got some news for you

You're the first to go

Tired

Tired

Are you sick and tired living like you're on fire?
Is it hard to keep up always feeling so low?

Acting out
and being entitled

Are you sick and tired?
Living like you're on fire

It's not me

Put the focus on you
You need help

Find yourself a cure

Swallow this pill

Medicate your view

It's the only thing
in your life that's true

Tired

Tired

Are you sick and tired living like you're on fire?
Is it hard to keep up always feeling so low?

Acting out
and being entitled

Are you sick and tired?
Living like you're on fire

Where do you get off
making others feel weak?

Where do you get off when you're putting others down?

Who's the real you?

Nobody knows you

That's the scary truth

Are you sick and tired?

Living like you're on fire

Is it hard to keep up?

Always feeling so low

Acting out

and being entitled

Are you sick and tired?

Living like you're on fire
