

Devouring Darkness

Thulcandra

Desolation, our inner mourning flame
The hymn of the dead, arose his throne
Devouring darkness, above the frozen sun
Beneath the forest of the dead

The son of darkness, across the blackened sky
The realm of evil, hear the eternal cries

Sinful souls, the astral lords
Beyond the stars, lies the gate

Devastation, the other side awaits
Summoning evil forces, spell of wisdom and curses
Devouring darkness, above the frozen sun
Beneath the forest of the dead

The son of darkness, across the blackened sky
The realm of evil, hear the eternal cries

Hear the prayers, chaos awaits
The book of flesh, on the other side
