

Sorrow of the One

Thulcandra

The eyes of darkness
The sorrow of the one
The second fall
In the fields of nowhere

Abandoned visions of ecstasy
In this hooded face of loneliness
A clarity hidden
Revealed in void and pain
The exile's desert
A journey from the blind

The failure of the demigods
Drowning the mist
The slumber of a rotten kind
I walk the eternal path alone

Ira separation of the flock
Along those rivers red
I recognise with scorn
The poison in their veins

In the shadows of the forthcoming
Glowing eyes, supremacy undone
As I claw in the pale flesh
Of those who fell behind
