

# Move On

Thunder

I get the feeling, this ain't the way it used to be  
I can tell it from the way you're throwing everything  
at me  
It's been bringing me down so long  
Think I need a change  
Every time we fight you wanna wreck my place  
I've reached the limit, I'm sick of your face

So move on baby  
You've gotta move on now  
Now the time has come  
It's time that you were gone  
So move on baby  
you've gotta move on

We only stayed together 'cause there wasn't nothing  
better to do  
Sooner or later it would have happened and you know it  
too  
Ain't no use in our hanging on, to a dream that died  
Fools forsaken baby, I guess we did  
We've gotta stop or one of us is dead

So move on baby  
You've gotta move on now  
We've got something but it's surely no love  
Won't need no statement  
I know I've had enough  
So move on baby  
Move on now, yeah

You know you're not the only pretty woman in town, oh  
no  
And I know I'm not the man that you really want  
So go where you wanna be girl  
Move along

Come on get out the door

I don't think I've ever heard a sound as loud as you  
can scream  
And my neighbour looks at me like he heard most  
everything  
Oh Yeah  
That was then and baby, this is now  
And as the curtain falls  
Don't you worry, you don't have to shed no tears  
Just get your pants and get on out of here

And move on baby  
It's time to move on now  
Keep on walking baby, don't look back  
You'll get your claws into another man

Move on baby  
You've gotta move on now, HA  
Move it on baby

You've gotta move on  
Come on, get out the door, yeah  
It's time you was on your way  
Packed your bags and baby  
I've got your ticket  
Get out the door  
Move it on

So long, farewell, adios and sayonara baby
