

# Shakedown

Thunder

Right time, right place coming with the right face  
The world was waiting for you  
Fast tide, landslide, lead us to the other side  
You walked on water too

I looked you up, looked you down  
Guess I saw what I wanted to anyhow  
I was wrong, you read me right  
Just like an insect attracted to the light

Hey now, this is a shakedown  
And I've been taken like a naive fool  
Hands up, deceived by the make up  
Better get myself back to school

Ah ah ah (ah ah ah)  
Ah ah ah (ah ah ah)  
Ah ah ah ah ah ah

It's a photo of front page but nothing's changed  
The con remains the same  
Pistol whipped, tight lipped, sailing on a fool's ship  
Off to war again

Bang the drum in the land of the free  
And the lapdog will bark in the same key  
You believed and you told us so  
But there's no rockets in a puppet show

Hey now, this is a shakedown  
And I've been taken like a little child  
Smoke and mirrors and promises  
Sleight of hand with a winning smite

All ah ah (ah ah ah)  
Ah ah ah (ah ah ah)  
Ah ah ah ah ah ah

What kind of legacy did you leave?  
You took the hope away from me  
You couldn't have had a better time  
To make a mark on history

I looked you up, looked you down  
Guess I saw what I wanted to anyhow  
I was wrong, you read me right  
Just like an insect attracted to the light

Hey now, this is a shakedown  
And I've been taken like a naive fool  
Hands up, deceived by the make up  
Better get myself back to school

Hey now, this is a shakedown  
And I've been taken like a little child  
Smoke and mirrors and promises  
Sleight of hand with a winning smile

Au ah ah (ah ah ah  
Ah ah ah (ah ah ah)  
Ah ah ah ah ah ah
