

# What a Beautiful Day

Thunder

It was just a winter's morning  
Walking in the human race  
Hurrying up going nowhere baby  
And then I saw her face  
In the chaos around us  
I don't know how I caught her eye  
But in the space of a heartbeat  
She started to smile

I could see the storm clouds gathering above me  
I felt the wind as it started to howl  
And it rained like the sky was crying  
But all I could say was what a beautiful day

Overloading my senses  
She was set in heavenly light  
Just the kind of a moment  
That lasts you a life, that's why

I could see the storm clouds gathering above me  
I felt the wind as it started to howl  
And it rained like the sky was crying  
But all I could say was what a beautiful day

I'll remember the feeling until I die  
Time was standing still  
I was flying high, so high

I could see the storm clouds gathering above me  
I felt the wind as it started to howl  
And it rained like the sky was crying  
What a beautiful day, oh yeah  
Such a beautiful day

And it rained like the sky was crying  
But all I could say was what a beautiful day
