

You Can't Keep a Good Man Down

Thunder

Cut down to the floor, then you're shown the door
No chance, no space, they're right in your face
You're put upon like a second class citizen
Get to the back of the queue, you're losing it now
You'll get through it somehow
You gotta tough it out

Oh yeah you can't keep a good man down
I said you can push a guy around
But you can't keep a good man down

Tongue-tied, cast aside, needle in your pride
Walking home in the rain cos you missed your ride
It's a no win situation once again
You're sick of telling yourself that it's gonna end
What doesn't kill you my friend, makes you strong in
the end

Oh yeah you can't keep a good man down
I said you can push a guy around
But you can't keep a good man down

No trial, no reward, don't fall upon the sword
Back straight, steely eye firmly on the prize
Pick yourself up and dust yourself down
Spin the world on your finger once again
I know that you can, don't be afraid to win

Oh yeah you can't keep a good man down
I said you can push a guy around
But you can't keep a good man down

You can't keep a good man down, you can't keep a good
man down
(repeat till fade)
