

Deadlights

Thunderstone

No more pain for me
No more suffering and grief
I'm done with this wasted world
I choose my destiny
I'm right where I want to be
Numb again and getting myself swirled

Hey take a look at me
Tell me: what do you see?
You've got one thing to give
Attention, please

All night long I dream a dream
Of brighter days
All day long I'm in the dark
My back to the world
All night long I dream a dream
Of brighter days
All night long I dream a dream
Of brighter days
And I'm ready to embrace
The deadlights

Here I stand alone
At the end of days for me
Blinded by the beauty of it all
I will face my fear
But I can't suppress a tear
I only wish that you'd have heard my call

Hey take a look at me
Tell me: what do you see?
You've got one thing to give
Attention, please

All night long I dream a dream
Of brighter days
All day long I'm in the dark
My back to the world
All night long I dream a dream
Of brighter days
All night long I dream a dream
Of brighter days
And I'm ready to embrace
The deadlights
