

# Ghosts Of Youth

Thunderstone

Scream in the night wake up in a fight  
Dreaming of death and destruction  
I am haunted by the ghosts of my youth  
Face in the light  
A stranger beside  
I'm lost I don't know where I'm going  
I am falling with the ghosts of my youth

Hunger for life is still strong  
I'm not younger  
I can't take it all  
Now there's other emotions inside growing day by day

And the days just keep passing me by  
I don't know what is hiding inside  
It tears out my heart and my mind

Bring me down - reality strikes me  
Heal me now - keep me alive  
Bring me down - got to be stronger  
Ghosts of youth - leave me alone!

I'm on the run for something i've done  
Just can't remember the reason  
I am the haunted by the ghosts of my youth

Hunger for life is still strong  
I'm not younger  
I can't take it all  
Now there's other emotions inside growing day by day

Bring me down - reality strikes me  
Heal me now - keep me alive  
Bring me down - got to be stronger  
Ghosts of youth - leave me alone!
