

Blame

Thy Disease

False claims of sabotage
The enemy comes from the outside
They want to deny our way of life
And prosperity

Personification of evil

Target for retaliation
An impoverished state
The time is not on our side
Action is now inevitable

Fear stricken minds
You will believe in more
Than the evidence can support

Challenging the empire of fear
They will never give up
Guardians of honour of imma
Deny the stream of lies

First sign of a smoking gun
Will be a mushroom cloud

Personification of evil
Now everyone has to pay

Whatever they fear from you
You will be threatened with
