

Freedom For Anshur-Za

Thy Disease

New era of relations
The death toll doesn't matter
Justified regime change
We have achieved the righteous victory

Conquer and divide
War of vengeance and resource control
Empire in denial
A new era of modern slavery

We'll take the profit of you
We'll suck every last, drop of your blood
Like it or not, you'll have to be free
The worst lie what a fucking relief

Yours newly gained freedom
Will spread around the globe
Creating a new world order
What a fucking relief...
