

Do You Feel Me

Tiësto

As darkness comes you sleep alone
I watch the world I've always known
Turning the corners of your mind
And I look, focus on your smile

Dadada dadada dadada
Oh the summer breeze
Somehow singing softly into you
Dadada dadada dadada
Hear me whispering
Always there, no matter what you do

I can't stop falling when my heart comes calling
Do you feel me?
Warming you like rays of sunshine
Can't stop falling when my heart comes calling
Do you feel me?
Warming you like rays of golden light

(Summer Breeze)
(Whispering)
(Summer Breeze)
(Whispering)

In shadows hide your deepest fears
If only you knew I was here
You're safe and seldom need my daze
You have the need to be afraid
(I am here)

I can't stop falling when my heart comes calling
Do you feel me?
Warming you like rays of sunshine
Can't stop falling when my heart comes calling
Do you feel me?
Warming you like rays of golden light

Dadada dadada dadada
Oh the summer breeze
Somehow singing softly into you
Dadada dadada dadada
Hear me whispering
Always there, no matter what you do
