

Do Better

Tiffany Evans

Boy, tell me what our love went
I always thought that we are heaven sent.
You say that I don't have no patience,
Well, you don't show appreciation.
Remember how I made you feel?
You're holding back from me, now what's the deal?
It's like every day you want it,
But I just wanna know what's in your head.

I want to go back to what was real,
Can't we just go back, baby, just live?
I set it off tonight.
I wanna go back to what was real,
Can't we just go back, baby, just live?
Can't we get it right?

Cause we don't ball like we used to,
Get it how we used to,
Tell me what's the issue
baby, what do we do?
You can do better,
I can do better,
Can we do better?
Cause we don't ball like we used to,
Get it how we used to,
Riding round the hood in the coupe like we used to
Baby, what do we do?
Can we do better?

Oh, baby,
I don't wanna keep repeating this
but you know is crazy
How we both say the same things
and nothing changes
All this love we got in this world
and we're acting shady,
Babe, it just amazes me.

I want to go back to what was real,
Can't we just go back, baby, just live?
I set it off tonight.
I wanna go back to what was real,
Can't we just go back, baby, just live?
Can't we get it right?

Cause we don't ball like we used to,
Get it how we used to,
Tell me what's the issue
baby, what do we do?
You can do better,
I can do better,
Can we do better?
Cause we don't ball like we used to,
Get it how we used to,
Riding round the hood in the coupe like we used to
Baby, what do we do?
Can we do better?

Ladies, if you really want your man back
Go ahead and bring it back
Fellas, if you really want your girl back
you better gon head tell her that
