

## Chemicals

**Tigers Jaw**

We are made from chemicals  
But what holds us together is much more than that  
You are strong, so much stronger than me  
All along, because you are everything and I am nothing

We spend our summers writing songs  
Of how we never make it on our own  
But here we are  
And I surrender  
I'm running thin  
You were right, because you are everything and I am nothing

We are made from chemicals  
You are strong, so much stronger than me  
All along, because you are everything and I am nothing
