

Heaven Apart

Tigers Jaw

It was bitter cold on the night
When I swear I saw the stars align
Next day stared at the sun to find
That you were burned in my mind

Marigold in your eyes
Feeling mesmerized
Coal kiss on a summer night

You're a million in my mind
Say you miss me, but you're "doing fine"
Heaven apart, count the time
As we both wish on four lines

I still remember when you said
"Maybe we're dreaming" I wrote it down as you laughed
Felt a spider crawling down my neck
Spelled perennial love with its web

And I realized
Now your pain is mine
I've got you memorized

You're a million in my mind
Say you miss me, but you're "doing fine"
Heaven apart, count the time
As we both wish on four lines

Found you on a Sweet Avenue
Now I spend so much time missing you
Wishing we'd lock eyes across the room
Or share the same ceiling view

You're a million in my mind
Say you miss me, but you're "doing fine"
Heaven apart, count the time
As we both wish on four lines
