

## Tall Tall Grass

### Tilly and the Wall

When I was young I used to sleep out in the garden,  
Wait to sneak in when the house grew quiet.  
Now that I'm grown I can't seem to find you there.  
There is no tall, tall grass for me to hide in.

When there wasn't anywhere for me to go,  
Oh, I stumbled into deep love with your rock and roll.  
When there wasn't anywhere for me to go,  
Oh, I stumbled into deep love with your rock and roll.

I can't believe that we were ever friends at all.  
I didn't see it. Can you forgive me?  
I've been scared to say I lined them up to fall,  
And I want to change.

When there wasn't anywhere for me to go,  
Oh, I stumbled into deep love with your rock and roll.  
When there wasn't anywhere for me to go,  
Oh, I stumbled into deep love with your rock and roll.  
When there wasn't anywhere for me to go,  
Oh, I stumbled into deep love with your rock and roll.  
When there wasn't anywhere for me to go,  
Oh, I stumbled into deep love with your rock and roll.

The world outside seems to be glowing  
Like a heart beating. The snow will cover everything
