

Made To Be Free

Tim McMorris

Movin' along, new beginnings and new ends
Spendin' out time, with our family and our friends
Celebrate, with the cool autumn air
And we're livin' out our lives, as we dance without a care, oh

We were made, yeah we were made to be free

The year is turning over, and the leaves go golden brown
The skies get crystal clear, as the temperature cools down
Life is full of colour, as the seasons change around
And the birds make their beautiful sound

Amazing things are here, without a catch, without a hook
But sometimes you have to search it out, or just know where to look
And in case you cannot find it, here's a song to you from me
Sometimes it takes, someone's helps so we can see

That life is here, and can be good
And a good life ya it should be, cause

We were made, yeah we were made to be free
Oh, we were made, yeah we were made to be free

My family and friends, I keep them near
The things you love, you keep them close, that's what I hear
We spend our time out by the fire, and watch the sun slowly retire
Life is simple, I like it that way

If you cannot find the truth in what I say
Your path is hard, and you are burned out every day
With each season comes a turn, for things to change, to start a new
They did for me, and things can change for you too

Just remember with each day there is an opportunity - and
We were made, yeah we were made to be free
Oh, we were made, yeah we were made to be free
We were made, yeah we were made to be free
We were made, yeah we were made to be free
Oh to be free
