

# You've Got My Heart

Tim McMorris

Come away with me  
Come, lets go away to be  
On a new adventure for two  
We can fly across the ocean  
Or take a train together  
I don't care as long as it's beside you

Take a road trip in a car, we'll get lost and go too far  
While on the beaches, we will watch the sun rise  
And if we've done there's all to do, I'll just sit and stare into  
Your loving face graced with those beautiful eyes

I have fallen madly in love  
You're the only one I think the world of  
And I will stay true, cause

You got, you got it  
You got, you got it  
You got my heart  
And I know together  
We'll be forever  
Never will part

You got, you got it  
You got, you got it  
You got my heart  
The first time I saw you  
Right then you had me  
Right from the start

When we started some would laugh  
Cause they thought we wouldn't last  
But take a look, now none of them are around  
And you're just the kind of girl  
That can wrap me in your world  
I'm walking on the air, my feet off the ground

Yeah, no one can catch my eye  
And so please don't even try  
Because you cannot beat the one that I found  
And now we're going on vacation  
A special destination  
Music, dancing, laughing  
Fun all around

I have fallen madly in love  
You're the only one I think the world of  
And I will stay true, cause

You got, you got it  
You got, you got it  
You got my heart  
And I know together  
We'll be forever  
Never will part

You got, you got it

You got, you got it  
You got my heart  
The first time I saw you  
Right then you had me  
Right from the start
