

Burn It Down

Timeflies

Just for fun
Let's go

Came I break rules with a break beat
And I'll break bread up in the back said
And they can cut checks and I'mma cash these
I'm gonna marry Kate and fuck the Ashley's
We got a full house coming with a full deck
Sipping on the Ace of Spades and I ain't fold yet
No, never, and I'm all in
My phone ring, she calling
Now she Alex Trebek-ing me questions
Bek-ing me questions, Bek-ing me questions
Bek-ing me, Bek-ing me, Bek-ing me questions
Bitch, Trebek doesn't ask any questions

The roof is on fire, we ain't going nowhere
The roof is on fire cause you know we don't care

Who started the fire
We don't care who sparked the flame
Can't take this roof any higher
So we just light it up and burn it
Just to watch it blaze
Watch it blaze, watch it blaze

Catch me in the flames, I've been heating up all day
Stuck in this inferno, straight cooking, al dente
Money is the appetizer, spending is the entrée
Big room, house, fill the basement and a hallway
Alex Trebek-ing me questions
Bek-ing me questions, Bek-ing me questions
Bek-ing me, Bek-ing me, Bek-ing me questions
Bitch, Trebek doesn't ask any questions

The roof is on fire, we ain't going nowhere
The roof is on fire cause you know we don't care

Who started the fire
We don't care who sparked the flames
Can't take this roof any higher
So we just light it up and burn it
Just to watch it blaze
Watch it blaze, watch it blaze

(Put it down)
The roof is on fire, we ain't going nowhere
The roof is on fire cause you know we don't care
The roof is on fire, we ain't going nowhere
The roof is on fire, on fire, know we don't care

Who started the fire
We don't care who sparked the flames
Can't take this roof any higher
So we just light it up and burn it
We don't care who started the fire
We don't care who sparked the flames

Can't take this roof any higher
So we just light it up and burn it
Just to watch it blaze
Watch it blaze, watch it blaze
(Put it down)
