

The glass shatters as I walk in  
They don't know it yet but I hear them talkin  
Timeflies yes, I'ma clock in  
And we the dudes that your girlfriend stalkin  
Yeah, I'm on it like I never was  
Hittin you harder than ever with a better buzz  
For lightyears  
to infinity and back divinity on the track yes leader of the pack 'cause  
With this chipstack, enough chit chat  
Understand this? This is a mismatch  
On the steady grind, I'm never ever slowin  
Clever as ever, flowin, makin some cheddar and goin  
Far, I'm aimin it at the moon,  
lying in the cannon well please light the fuse soon  
Any beat I ruin, wordplay I'm fluent  
Challenge me and I wonder what the fuck you doin

You been starin at me all night long,  
why don't you come over and say something  
Girl I could see the game you on, but baby I don't wanna play nothin  
I could tell what you want, you already know I got it  
So why don't we get it on, baby I'ma rock your body  
So when these lights get turned down low  
Got the whole place rocking now,  
ain't nothin that can stop us now, lets go

I-I-I-I know you want me baby  
I-I-I-I think I want you too  
I-I-I-I'm bout to make you crazy  
Lady this is what we gonna do

I-I-I-I know you want me baby  
I-I-I-I think I want you too  
I-I-I-I got you goin crazy  
Lady I-I'ma give it to you

Damn, I could do this all night long, yeah I'm lovin the way you move girl  
We could go until the break of dawn, baby let me take you to a new world  
And with the way you look tonight, ain't no way I'ma leave without you  
Girl you know what I like, yeah I think I'ma write a song about you  
So when these lights get turned down low  
Got the whole place rockin now, ain't nothing that can stop us now  
We could turn it up, everybody lose control, lets go

Unleash your glory on the night sky  
For those wondering yes I am the right guy  
Used to worry who I was doin right by  
And now I just light and ignite my brain  
Make the club go insane, this fuse only takes one flame  
For me to go and make fire, rap it like a gift and sing it like a choir  
Girl I just love the way you backin it up on me  
I can't wait to take you home and fold you up like origami  
Yes I think it might be time, cause you know its gettin late  
And this place about to lose it when we d-d-d-d-d-detonate
