Lose My Mind

Timeflies

We got that down home bass grove
Dance floor can't move
Lose control lose your mind
Everybody's on they grind
DJ make this max out
Party till we pass out
Baby put yo glass out
Drinkin till we blackout
We got no line
My dude is workin the door
I'm headed straight to the bar
Findin a girl then workin the floor
Cause when we get to moving
You know we can't be stoppin
We specialize in bangers and gettin them panties droppin

We get the dance floor bumpin and baby it's time
We get the whole crowd jumpin they on they grind
I'm here, lookin for somethin it's you I find
When the club starts thumping I…
I lose my mind

Walk through the crowd
Yeah girl I'm lookin for you
This beat has got me bumpin
No tellin what we gon do
We got that money to be blowin
That shit to keep you goin
You know its fire when Rez is on the beat
And I be flowin so

Uh, I've seen you before
But I don't really know where
Maybe it was at that bar or with your man
Well shit, I really don't care
Girl you all up on me
I'm feelin that you want it
I'm lookin for some lovin
So baby come get up on it

We get the dance floor bumpin and baby it's time
We get the whole crowd jumpin they on they grind
I'm here, lookin for somethin it's you I find
When the club starts thumping I…
I lose my mind

Tonight is
Movin too fast
Girl what can we do
Let's make this last
Did it wrong for so long
It's time to get it right
Everything we been doin
It's all for tonight
But there's
Just one thing I've got to ask….

Baby have you fallin in love yet?
And I make you lose your mind
Rockin you with that dubstep
We in our own world, don't even realize
As the clock ticks on
Timeflies
Damn! The club starts movin like the bass and
Bitch I'm a monstar, and this is my space jam
Yeah, uh, and Rez let's run it back
Gettin all my cardio from runnin on this track

We get the dance floor bumpin and baby it's time
We get the whole crowd jumpin they on they grind
I'm here, lookin for somethin it's you I find
When the club starts thumping I…
I lose my mind
