

Prosecco

Timeflies

She got me curious, in the spot so loud
See, your body cuts through the crowd
Look at you, luxurious
Yeah, if looks could kill, cold blooded
It's getting serious
Everybody take shots, shooting looks to you
I got caught, goddamn it, I'm feeling this
She's super bad, McLovin

Watch you wine and dining
I'mma go and send a couple bottles of the finest
I'm infatuated, so captivated
Don't need a waiter cause I'll be waiting on

You, you got me curious about the two of us
And all the things that we could do
Let the music set the mood
You, you got me curious about the two of us
And maybe we should change the view
So, baby, I could sip on you
While you're sipping Prosecco-secco-secco
While you're sipping Prosecco-secco-secco

Can't look away, no
Can tell she want me, her body like a Bugatti
Bet you I like Maseratis in the streets of Abu Dhabi
Scream louder than paparazzi, come get it
Got me feeling some type of way, ah
She gave a hint at me, dance with me, baby
I'll be your fantasy under the mirrors, no vanity
You know I got the bread, you got the butter
Come spread it

Watch you wine and dining
I'mma go and send a couple bottles of the finest
I'm infatuated, so captivated
Don't need a waiter cause I'll be waiting on

You, you got me curious about the two of us
And all the things that we could do
Let the music set the mood
You, you got me curious about the two of us
And maybe we should change the view
So, baby, I could sip on you
While you're sipping Prosecco-secco-secco
While you're sipping Prosecco-secco-secco

Drink you head to toe
Baby, you should sip this slow
Drink you head to toe
Baby, you should sip this slow
Cause I'll be waiting on

You, you got me curious about the two of us
And all the things that we could do
Let the music set the mood
You, you got me curious about the two of us

And maybe we should change the view
So, baby, I could sip on you
While you're sipping Prosecco-secco-secco
While you're sipping Prosecco-secco-secco
While you're sipping Prosecco-secco-secco
(While you're sipping Prosecco)
While you're sipping Prosecco-secco-secco
