

# The Chase

## Timeflies

The chase is on, I find  
Everywhere I'm runnin to, I run blind  
Thinking that I'll catch my break  
Dreaming that it might be fate  
But I don't believe in that  
It's so hard to find my path  
I'm afraid to risk  
Afraid to try  
I'm so locked down let me fly

From here, I don't know  
I wanna live fast, I'm movin too slow  
Life's too short, ha, I know that  
I'm runnin in place can't find where I'm at  
There's no supposed to or oughta be  
I live for everybody else I've forgotten me  
I'm scared to run  
I'm scared to chase  
It's gettin harder every second I waste

I know, that we gon get it all  
Flyin so high, no we'll never fall  
Yeah we, buzzin to the stars  
Watch the world turn yeah this universe is ours  
I know, exactly what you like  
Yeah we make it hot, spit this fire right  
Now we, ridin on the bass  
You already know that the chase... is on

Now I know what I'll do  
Been searchin so long yeah, just to find you  
Time for me to make this right  
Time for me to start this fight  
Cuz baby I will, change this game  
And everyone will, know my name  
Cuz Ima get mine  
And go hard  
I'm thinkin nows a good time to start...

Even though they ain't ready I'm thinkin it's time that I go and drop to this  
Cuz every time I rhyme I'm in my prime transformin the flow like I'm Optimus  
And I'm an optimist, cuz seeings believin and yes you know that I got the gift  
So when I'm on yo stage or in yo phones, I'm knowin these cats can rock to this  
So let's rock to this, no stoppin this, yeah, cuz you know we showin up, and if  
Timeflies is on it then yall ready know it's blowin up  
Rez hit em, let em know what's up  
Show em how we slow it up  
I know I could see yo hands but I think it's time you throw em up

I know, that we gon get it all  
Flyin so high, no we'll never fall  
Yeah we, buzzin to the stars  
Watch the world turn yeah this universe is ours

I know, exactly what you like  
Yeah we make it hot, spit this fire right  
Now we, ridin on the bass  
You already know that the chase... is on

So now we chase...

They lovin everything  
All the people say it's great  
And I watch them lose they mind  
When the dolorean reaches 88  
Yeah we travel back in time  
Then to the future  
I fuck the beat anyway you like I wrote the Kama Sutra, oh

I've run the numbers  
But I'll let you do the math  
With a flow that goes electro  
Burnin holes on anything in my path  
So feel my wrath  
Me makin gold like Midas might touch  
Game plan as easy as roll up and light dutch

I know, that we gon get it all  
Flyin so high, no we'll never fall  
Yeah we, buzzin to the stars  
Watch the world turn yeah this universe is ours  
I know, exactly what you like  
Yeah we make it hot, spit this fire right  
Now we, ridin on the bass  
You already know that the chase... is on

And on and on and on...  
Got em again Rez  
Scotch'd up
