

# We found love

Timeflies

We found love in a hopeless place  
We found love in a hopeless place  
We found love in a hopeless place  
We found love in a  
We found love in a

Took it from slow lines to fast lanes  
From singin' it to the rap game  
To shirts comin' off more willingly  
Than I was chillin' with Brandi Chastain  
It's a journey of me, finding time for who I am  
Tryna' borrow the belt  
'Cause I been chillin' with Orion  
In a street car named desire  
In a verse that I call fire  
In a get up that you admire  
'Cause I don't just do this shit for hire  
Too drunk n' tired  
So reboot the track now let me rally  
Globe trottin' mothafuckah  
Now it's just me and Rand McNally  
I'm on my flight  
Now I'm in my whip  
Now I'm on some beach  
While I'm on your chick  
And it feels so right  
When I live like this  
Fly every night, wings on my wrist  
That means that time flies, just face it  
Don't waste it tryna' chase it  
Overcomplicating life baby  
Let's just take it back to basics  
Runnin' this shit out in my Asics  
Let's get twisted let's get wasted  
In case you ain't got cases  
I got the best you ever tasted  
Yeah realness is the truth  
Just do what you do and focus  
Now blur the rest out  
Or else me and you are hopeless 'cause...

We found love in a hopeless place  
We found love in a hopeless place  
We found love in a hopeless place  
We found love in a  
We found love in a

Free flow, every word to be  
Askin', You ever heard of me?  
Tongue MD, yeah  
Helps me with this verbal surgery  
The beat, fire, burning you in the third degree  
And that's more separation  
Than there is ever sure to be  
'Cause you can surely see  
That you're the cure for me  
I'll be addressing this situation urgently

Urging me to lie on you  
Even though I'm tryna' court you  
It's feeling like perjury  
Pull the curtain please  
There is seemin' to be  
Nothing short of some sort of emergency  
All the wordin' emerging  
Yeah, stop it from hurting me  
Alright let me close my eyes  
Tell you what I like and tell you what I see  
I think it's time we turn down the lights  
It's gettin' a little hot n' heavy in the VIP  
And it wasn't too long ago  
They'd look at me  
And say 'Son, you know we ID?'  
Now they can't wait  
To pull the rope and ask  
Who the fuck it is I wanna get in free  
Yeah, I say let's let 'em all in  
And we could burn this up  
'Cause you're gonna  
Wanna be right there with us  
When the DJ turns this up  
Let's let these lights go dark  
Let's get a little louder too  
Timeflies is in the building  
Let's show 'em how we do

We found love in a hopeless place  
We found love in a hopeless place  
We found love in a hopeless place  
We found love in a  
We found love in a

So let me go and do it like this...

Creating more problems  
Than you could solve  
And I'm hogging all the bars  
While hangin' with Veruca Salt  
And I'm flowin' nothin' but golden tickets  
I'm gettin' with it  
See I hear these screaming fans  
While all you hear is fuckin' crickets  
This is a full affrontal, take it all off  
Patiently racing  
I ain't waiting for y'all to fall off  
All this that I have tried  
Now it seems that I've arrived  
Yellow diamonds in the light  
I finally feel like I'm alive

We found love in a hopeless place  
We found love in a hopeless place  
We found love in a hopeless place  
We found love in a  
We found love in a

We found love
