

# Incredible

Timomatic

Tonight, she found me just in time  
Her smile brought me back to life  
Like some kinda miracle  
She stares, all I want is more  
Unless saw her captivore  
She's an original  
Yeah, yeah eh

She don't have to speak, no  
A single word to me, no  
But when she opens up her eyes  
There ain't no mystery, no no no no  
She's so unbelievable

Don't know why the stars are in the sky  
Don't know how this love found me tonight  
But something I know for sure  
Baby you're incredible  
And I want the whole world to see  
You are the light inside of me  
One thing I know for sure  
Baby you're incredible

Tonight, feel our hearts align  
Inside, when her lips touch mine, oh yeah  
It's indescribable, ooh ooh  
With every move she makes  
She takes my breath away  
And girl I know that every moment  
Is a chance to say you're beautiful  
Baby you're a miracle  
Oh

Don't know why the stars are in the sky  
Don't know how this love found me tonight  
But something I know for sure (For sure)  
Baby you're incredible  
And I want the whole world to see  
You are the light inside of me  
One thing I know for sure (One thing)  
Baby you're incredible  
Baby you're incredible  
Baby you're incredible  
One thing I know for sure  
Baby you're incredible

Don't know why the stars are in the sky  
Don't know how this love found me tonight  
But something I know for sure  
Baby you're incredible  
And I want the whole world to see  
You are the light inside of me  
One thing I know for sure  
Baby you're incredible  
Baby you're incredible  
Baby you're incredible  
One thing I know for sure

Baby you're incredible
