## **A Big Hurt**

## **Tin Machine**

To meet her once is to know her through and through I know, I know
But it ain't finished till the fat lady sings
I know, I know

How can I help you?
You're just a wanna be
I'm a believer
You're a sex receiver

And me with a big hurt You know I had a big hurt From the very start

I'm hurtin' so bad
'Cause you're my room mate from hell

Got to take some blows on the stepping stones Speak in extremes, it'll save you time You were a saint abroad but a devil at home Come on here, wo woo, and kiss it for me

To meet her once is to know her through and through I know, I know

Even a glass eye in a duck's ass can see that
I know, I know

I'm hurting so bad
And here come the Indians, ooo

Got to take some blows on the stepping stones Speak in extremes, it'll save you time You were a saint abroad but a devil at home Come on here, woo woo, and kiss it for me
