

## Disco Love

Tina Charles

Once my life was just a lonely room  
With no one to take away my gloom  
Waiting for someone to come and fill my life with love

Oh, sweet love  
And set my heart on fire, fire  
Burning at the flame of love  
Higher, higher than the stars above  
I need someone to drive me wilder, wilder than a  
Raging storm  
Ooh, I need somebody to burn me at the flame of love

Every cloud must have a silver lining  
You came along my knight in armor shining  
All my life I've been knocking at doors  
Now I'm so glad that door that opened was yours  
You set my heart on fire, fire  
Burning at the flame of love  
Oh, you take me higher, higher than the stars above  
You drive me, drive me, wilder, wilder than a  
Raging storm  
Ohh pretty baby, I'm burning at the flame of love  
Ohh pretty baby, I'm burning, burning with love  
Ooh pretty baby, I'm burning at the flame of love  
Ooh pretty baby, I'm burning, burning with love
