Same Old Story

Tina Charles

Well you know your looking fine is like you Always do, but lately I have seen that's been A change with you, the smile is not the same There is a sadness in your eyes is tough you Cried to every little tear ran try, yeah

And it's still the same old story in the fight For love is glory there is a winner there's A looser say goodbye no regrets if your Looking for a new love just be sure you do Love so better be a careful chooser there's A winner there's a looser in the game, yeah

Well is something in the way you laugh to Easily you may fool everybody but you won't Fool me why I know every little look that's In your face and I can see the loneliness that's Taken place, yeah and it's still the same old story And the fight for love is glory there's a winner there's a looser say goodbye no regrets, if your Looking for a new love just be sure love before You do so better be a careful chooser there's a Winner there's a looser in the game

Yes it's still the same old story in a fight there's Love and glory there's a winner there's a looser Say goodbye no regrets, if you're looking for a new Love just be sure before you do love better be a Careful chooser there's a winner there's a looser In the game.

Yes it's still the same old story there's a winner there's a loser in the game.
