

# So Vividly

Tina Charles

You left me with a kiss that was so tender  
This I remember so vividly  
And I never realised that you were leaving,  
That I'd be grieving over you  
Now it's been a year since that day in September  
You're still here with me, constantly  
And those pictures of you in my mind won't leave me  
I can see you smile; so vividly

I'm in chains without you  
And it's you that holds the key to set me free  
Always pains in my heart  
Cause you are always here with me so vividly

Key change  
I thought the love we knew would stay forever  
But I guess it just, was passing through  
And I know all I can do is keep believing  
That maybe someday soon, we'll meet again  
Don't know how I'm gonna stop the rain from falling  
I guess I'll long for you endlessly  
But maybe beyond - the clouds you're feeling lonely  
And you'll remember me so vividly

I'm in chains without you  
Only you have got the key to set me free  
Always pains in my heart  
Cause your'e always in my thoughts so vividly  
Repeat chorus  
So vividly heee (3x)
