

Midnight Sun

Tinashe

Let me be your midnight sun
Cause I'll love you when the day is done (I'll love you when the day is done)
And in the deep of night you can count on me to be your morning light

I know it gets hard to see things clearly
But there's a lot of shit you going through
Day to day, day to day
Giving up now would be too easy
There's gotta be another break to take the pain away, to take the pain away
Just call me when your walls crashing down around you
Wrap you up let my love surround you, with my own body
I promise, if you need me I'll be here regardless
When your hopes are low remember how full my heart is

Let me be your midnight sun
I'll love you when the day is done (I'll love you when the day is done)
And in the deep of night you can count on me to be your morning light
Let me be your midnight sun
I'll love you when the day is done (I'll love you when the day is done)
And when the darkness comes you can count on me to light it up light it up

Oh yeah yeah yeah
Your losing the fight
Your falling on the ground
Fallin, on down
You're losing that fight
Till ya come on down
You're falling on down
Don't give up right now
Darlin' show me what that heart do
Press it if you trust me
Even if we fall through
I got you
I promise if you need I
I promise, if you need me I'll be here regardless
When your hopes are low know how full my heart is

Tongue kissing end up the floor with it
Don't miss it, watch me how I long flip it
Slow sippin' get it what you gone swimming
No limit, you gone fall in love with it
Fuck with it, I put my trust in it
Grab it from the top just adjust in it
Tryin to get low he was just in it
Do it so good caught me one minute
Came by in the day time, bae bye need that face time
Said it's game time, round two, lay that thing down
Easy bang out, champagne, spouse on the rug, spilling drinks now
Just livin', high life blunt, whippin'
One hit it, back at it, wanna finish
No really, I'm feeling you
You the only nigga I'mma give it to

Nights like these are beautiful between us
So let's make it last
You know what I mean
