

Streetlights

Tinchy Stryder

Streetlights shape the world
Like the Stars on my back
Streetlights, blood, stars on my vest
Streetlights shape the world like the stars on my back
On this lonely road I'm a champion (ooh, ooh)
Oh-Oh-Oh-Oh (Oh-Oh-Oh-Oh)

[Hook]

Under the street lights (long as I'm under those lights)
Where I belong
Under the street lights (long as I'm under those lights)
Under the street lights (long as I'm under those)
No matter how far I got I will always find my way back

[Verse]

Let me take my shades off
My vision ain't nothing like the perfect eye sight
I'm just viewing it from my side
Blinded by the lights on the streets feeling like Mike
Somehow I'm managing to see it from fisheye
You choose its your fight, street life
Young single baby mothers tryna' raise a new life
Careful how you treat life both hands, hold tight
Hope there was none left, suddenly it's all there
Came to do bad [?]
We bleed the same on both sides
Dream big, damn right, reality the best play
Guidance under those lights

Long as I'm under those lights
The grass is looking greener on the other side right
The air blows fresher on the other side
Feeling like you have to
Like a boy without a tattoo
To yourself thats the one thing you must do
Play your cards right, don't be pickin' out the wrong suit

Yeah its alright, nothing like moms food
Then you got the dark days, lashing out outrage
Saying whys this happening to me for, for fucks sake
Dream big, damn right, reality the best way
Guidance under them lights

[Hook]

Under the street lights (long as I'm under those lights)
Where I belong
Under the street lights (long as I'm under those lights)
Under the street lights (long as I'm under those lights)
No matter how far I got I will always find my way back
Under the street lights (long as I'm under those lights)
Oh-oh-oh-oh
Under the street lights (long as I'm under those lights)
Where I belong
Under the street lights (long as I'm under those lights)
Under the street lights (long as I'm under those lights)
No matter how far I got I will always find my way back
Under the street lights (long as I'm under those lights)

Oh-oh-oh-oh
