

## Kill the Pain

Tiromancino

Don't sail away from everything you are  
to find yourself  
i'll be the ground to dig down your roots  
kill the pain

And your eyes will never change  
feel the sun despite the rain, one more day

Kill the pain,don't let it grow and take me home

There's another day to flow  
and the wind begins to blow  
fear's gone
