

## Child's Play

TNT

Where does it end?  
Now as the day returns  
The sun is rising to a darker sky

Though the years have passed  
And chances have slipped away  
If we lose it now we'll never see  
Another day

We live for the sun , don't think about  
Tomorrow  
Life has just begun

It seems like child's play  
Oh they're playing with our lives  
Guess they're just too blind to see  
It seems like child's play  
Cause they're filling us with lies  
Now they take our dignity

Love lost in time  
Leaves us in memory  
Of the days when we were one

Dreams never die  
Each night when i close my eyes  
I can feel that there's an answer  
Just waiting in disguise

Precious life , a hope forever shinin'  
With justice for all...

It seems like child's play  
Oh they're playing with our lives  
Guess they're just too blind to see  
It seems like child's play  
Cause they're filling us with lies  
Now they take our dignity
