

Oh cool it, I said  
Why do you do this to you?  
Slow down, take good care  
You're really moving nowhere  
Oh you seem, afraid it  
Won't last - that's why you move so fast  
So take my, my advice  
Go straight, and settle down  
Why not live a natural life?  
And be loved for what you are  
Leave all pressure, don't think twice  
That would get you far

Uh you can get what you've been looking for  
You're on your feet now baby  
Uh you can have who you've been longing for  
But you say if and you mean maybe

Oh cool it, she said  
But thank you for your care, now  
Please tell me  
What went wrong  
Can't take these ups & downs  
The days I, hardly make it through  
I swear there's a curse on me & you  
It's bye bye pepsi cola, hello holy wine  
Why can't I live a natural life  
And be loved for who I am  
Living high, living fine  
Must it be on borrowed time?
