

## Just Like God

TNT

Feed my head, get me high  
Got no life here so  
I need to be pacified  
one more face, one last show  
wasting brain cells  
I'm just waiting for the time to go  
Hypnotize, hypnotize me

everybody loves you  
when the nights are long  
all the lonely people  
sing your happy songs

zone me out, bleed me dry  
drug my senses till I'm  
cold a little dead inside  
just like god you've become  
all consuming bring the world  
into every home

Hypnotize, hypnotize me

everybody loves you  
when the nights are long  
all the lonely people  
sing your happy songs

Hypnotize, hypnotize me

everybody loves you when  
when the nights are long  
all the lonely people  
sing your happy songs
