

## Without Your Love

TNT

Last night i saw a lady  
Standing by the fire  
She smiled and told me  
I was always her desire  
But you, you came into my mind  
Once again  
I knew that love is what I need  
Just can't pretend  
Cause.....

I've been lost without your love  
I've been lost without your love  
I've been lost without your love  
(never ever fall in love again)

Now I, I can't believe  
We'll always be apart  
You, you took away the  
Love in my heart

I've been lost without your love  
I've been lost without your love  
I've been lost without your love
