

Cherry Blossom Falls

To Kill a King

This year was fighting dirty and it aimed to kill
Dealt me every blow, every cut and pill

I was in the wicked sea
Drowning not waving if you please
Oh

See how the cherry falls
See how it falls
See how the cherry falls
See how it falls

I was in the waiting room
When the blossoms bloomed
But now I'm here next to you

This year worked the body while my hands were tied
Kept me under heel, made me doubt my mind

I would speak the words fall out
But it felt like they belonged to someone else
Oh

See how the cherry falls
See how it falls
See how the cherry falls
See how it falls

I was in the waiting room
When the blossoms bloomed
But now I'm here next to you

See how the cherry falls
See how it falls
[x17]
See how the cherry falls
