

Friends

To Kill a King

I wake upon the ocean
I get my doubts to drown me
All waves of all emotion
I'll call the ones to save me
Hey hey hey let them know
Hey hey hey let them know

If you love them let them know
No good will come from being silent, you know
Oh, I can take a nails
Scratch a word into my palm
Take all the love we've got
And call it a friend

If you love them let them know
No good will come from being silent, you know
Oh, how I feel now
Shaking up and down my spine
And we'll take all the love we found
And call it our friend

I'm on the phone to fall asleep
I'm on the phone to fall asleep
I'm on the phone to fall asleep, in deep
I'm on the phone to fall asleep, in deep

If you love them let them know
No good will come from being silent, you know
Oh I can take a nails
Scratch a word into my palm
Take all the love we've got
And call it a friend

If you love them let them know
No good will come from being silent, you know
Oh how I'm feeling now
Shaking up and down my spine
And we'll take all the love we find
And call it our friend

I'm on the phone to fall asleep
I'm on the phone to fall asleep, indeed
