

How Do You

Toby Lightman

I getting tangled up in my little web of worry
While you're just sitting there, with no care in the world
I know you got to see when trouble's coming
Show me a way around and help this little girl

'Cause I'm broken and I'm beaten
And I'm needin' a better way
Through the hard times, the low times
Show me a better way

How do you, roll with the thunder
How do you, fall with all that rain
And how do you, rise above the water
How do you, ride on that, ride on that wave

Our problem won't let go and sleep don't come so easy
While you're resting, dreaming there on a cloud
And even though I know the ending to this story
I just can't stop myself from worryin' out loud

'Cause I'm hurtin' and I'm searchin'
And I'm needin' a better way
I can't stand it, can't help it
Show me a better way

How do you, roll with the thunder
How do you, fall with all that rain
And how do you, rise above the water
How do you, ride on that, ride on that wave

No no no, trouble don't come today
No no no, trouble don't come today
No no no no, trouble don't come today
No no no no no no, show me a better way

How do you, oh how do you do it...

How do you, roll with the thunder
How do you, fall with all that rain
How do you, rise above the water
And how do you, ride on that, ride on that wave
