

I'm Comin' Over

Toby Lightman

Walking through the house for days
Like a ghost in the hall
A shadow on the wall
Am I alone in a foggy haze?
When's this gonna end?
I'm asking for a friend

Cause the world is playing tricks on my eyes
And the nearness of you is in disguise

Cause I can hear you
And I can see your face
I can laugh at all those things
That only you can say
I can read to you
And we can float away
When this is over, I'm coming over
Ooh... I'm coming over

It's strange to be in a place you know
From the window looking out
While the other side is shutting down
All these things you wanna say but don't
Now's the time to, feel it all and let it out
Every scream and every shout

Cause the world is playing tricks on our eyes
It's hard to tell the truth from the lies

Cause I can hear you
And I can see your face
I can laugh at all those things
That only you can say
I can read to you
And we can float away
When this is over, I'm coming over
Ooh... I'm coming over

Walking through the house for days
Like a ghost in the hall
A shadow on the wall
Am I alone in a foggy haze?
When's this gonna end?
I'm asking for a friend
