

# One Day

Toby Lightman

One day  
We'll be one  
One day  
We'll be one

Imagine a world where everyone's the same  
Same height, same hair, same thoughts, same things to care, about  
Would that make the world more beautiful, no, no  
Would it stop the wars, would it teach us more, about life

One day  
We'll be one  
One day  
We'll be one

Imagine a world where there was one belief  
To love one another, be thankful for what we're, given  
What if trust was floating in the air, everywhere  
For the people to feel, would the leaders steal it again

One day  
We'll be one  
One day  
We'll be one

Feel it in your soul  
Say what you wanna say  
Don't be blind to the world  
Don't you look the other way  
Cause we're running out of time  
There's too much to be done  
will it be on your mind  
when a billion turns to one, one day

I don't wanna be  
Just wasting away  
Without nothing to day  
Not another day  
Goes by, when I don't  
Imagine a world  
Where trust would float up in the air  
Think we all could use  
Something to believe  
An Idea to conceive  
What a world, we'd be  
Gotta understand  
Give it all that I am  
Gotta know that I can
