

# This Is Love

Toby Lightman

Holdin' out wastin' all of my time  
Got the words not the melody, oh  
I was looking at the end of the line  
There you were, right in front of me

Yeah, you found me hopelessly waiting  
For stars and the sky to collide  
'Cause the sparks gotta fly  
Got the doing from me

So this is love  
Now I feel, now I know  
This is love  
Now it's real, I won't let go, yeah

Always walking never finding out  
Wasn't meant to be  
Always thought I was better off  
Thinkin' what would be will be

Then I found you  
I'm not gonna wait anymore  
Now I'm sure that it's bright  
If you thought that I might lose my nerve

So this is love  
Now I feel, now I know  
This is love  
Now it's real, I won't let go

Oh, counting our days for tomorrow  
Never thought I'd make it  
Never knew it wasn't enough  
'Cause baby, now this is love

(Now I feel, now I know)  
Baby, now this is love  
(Now it's real, I won't let go)  
Baby, now this is love

Oh, this is love  
(Now I feel, now I know)  
This is love  
(Now it's real, I won't let go)
