

Favorite Song

TobyMac

My whole life I wondered how
This wondering heart could turn around
It's over now, yeah
Imma leave my selfish melodies
Wanna be in your beautiful symphony
Its over now
You sing to me and my heart comes to life
Beating for You everytime
And now that I hear you, oh I love the way
Your chorus gets stuck in my mind
Like a lyric to my favorite song
You stick with me all day long
And when I reach the end
I wanna hear it again
Like a lyric to my favorite song
You stay with me all day long
And when I reach the end
I wanna hear it again
(Ladies and gentleman... Jamie Grace)
While your remix is so surprising
Like raindrops when the sun is shinnin
It's beautiful to me
Lord you
Flip my words and change the tempo
And somehow you just make it simple
So beautiful to sing
You sing to me
And my heart comes to life
Beating for You everytime
And now that I hear you, oh I love the way
Your chorus gets stuck in my mind
Like a lyric to my favorite song
You stick with me all day long
And when I reach the end
I wanna hear it again
Like a lyric to my favorite song
You stay with me all day long
And when I reach the end
I wanna hear it again
I am a man in need
You are my remedy
I love the way that you sing to me, sing to me
Your soothing melody
Has got me listenin
I can't wait to hear you sing to me, sing to me
I am a man in need
You are my remedy
I love the way that you sing to me, sing to me
Your soothing melody
My heart is listenin
I can't wait to hear you sing to me, sing...
Like a lyric to my favorite song
You stick with me all day long
And when I reach the end
I wanna hear it again
Like a lyric to my favorite song
You stick with me all day long

And when I reach the end
I wanna hear it again
You're my favorite song
All day long
