

# Scars

TobyMac

No, no  
You're on?  
Just deep in it right now  
I gotta go  
Hey

Had you on my mind, I  
Had a little time, I  
Know we kinda overdue  
Turnin' back the pages  
To our younger days, yeah  
I can still imagine you

Boomin' like the thunder  
Chasin' life with wonder  
With fire that could light a room  
Bottom kinda fell out  
Waited for the rebound  
But you never made a move

When life cuts so deep  
Try and remember

You, You're not alone  
We've all been there (been there, been there)  
Scars come with livin'  
You, you're not alone  
We've all been there, oh (been there, been there, oh)  
So lift your head, lift your head  
Lift your head to where your help comes from  
Yeah, you, you're not alone  
We've all been there  
Scars come with livin' (with livin', with livin')

Life ain't got no sequel  
We all broken people  
The only road to found is lost  
Oversimplifyin'  
Ain't no shame in tryin'  
Passion never counts the cost (counts the cost)

Now you won't take my phone calls  
You won't text me back at all  
I just want to see you  
I can't stand to see you gone  
Yesterday I missed you  
Yesterday I played your song  
I'm oversimplifyin'  
I'm oversimplifyin'  
(I'm oversimplifying, I'm oversimplifying, I'm oversimplifying)

But try and remember

You, You're not alone  
We've all been there (been there, been there)  
Scars come with livin'  
You, you're not alone

We've all been there, oh (been there, been there, oh)  
So lift your head, lift your head  
Lift your head to where your help comes from  
Yeah, you, you're not alone  
We've all been there  
Scars come with livin'

Scars come, scars come, oh, scars come  
Oh, scars come with livin'  
Scars come, scars come, oh, scars come  
Oh, scars come with livin'

It doesn't matter who you are (who you are)  
This world gon' leave some battle scars (battle scars)  
It doesn't matter who you are (who you are)  
This world gon' leave some battle scars (battle scars)  
It doesn't matter who you are (who you are)  
This world gon' leave some battle scars (battle scars)  
It doesn't matter who you are (who you are)  
This world gon' leave some battle scars (ooh)

You, You're not alone  
We've all been there  
Scars come with livin'  
You, you're not alone, you're not alone  
So lift your head up (scars come, scars come) (head up)  
To where your help comes from  
Lift your head up (scars come, scars come) (head up, head up)  
Oh, scars come with livin'  
Lift your head up (scars come, scars come) (lift your head, lift your head, lift your hea-hea-head)  
To where your help comes from  
Lift your head up (scars come, scars come) (lift your head, lift your head, lift your head)  
Oh, scars come with livin'  
Lift your head up (scars come, scars come) (head up, head up)

It doesn't matter who you are (who you are)  
This world gon' leave some battle scars (battle scars)  
Lift your head up (scars come, scars come) (lift your head, lift your head, lift your head)  
It doesn't matter who you are (who you are)  
This world gon' leave some battle scars (battle scars)  
It doesn't matter who you are (who you are)  
This world gon' leave some battle scars
