Feel It

Todd Rundgren

I look at you and go mad With thoughts of things that I'd do If one chance I had to show you What this man really wants to do

When I'm through, you would say It's been done never that way And I know you can learn something new every day

And it feels so good If you don't think too much Don't even try to be serious Just let my hands take control And give me all of your soul

You know I tried To run away but I can't hide

From the moment that's suspended deep inside When you were mine Now I need to feel it One more time

Won't you try to feel it Let me try to feel it

Feels so good when you lean into me In the dark I can see I can feel in my mind what is reality Why can't you see Things like this are meant to be Yet somehow once again You have thrown me aside But always this feeling survives
