

# I Love My Life

Todd Rundgren

Every day I hear the news  
Seems like people worship pain  
All your oprahs and donahues  
They just can't explain

As you reap you shall sow  
I looked high I looked low  
Now I know that I love my life  
I love my life

I said me and my creator  
We got a funny love thing  
It's happenin' now and not later  
Yeah, that's why I sing

First came thought then came deed  
I got caught now I'm freed  
All I need is to love my life  
I love my life

Time, the topic of the sermon tonight is time  
Time, the thief of hope  
Time, the ameliorator of all our endeavors

What will we do with time off our backs?  
We would make this world a perfect place  
We would make our lives a perfect thing, if not for time  
But I tell you now, time is an illusion  
Time is an illusion, time is not real  
Time is the dividing line between what is true and what is not true  
Between what is real and what is not real  
Between what is so and what is not so  
But who, I said who, who stands for time?  
Who stands at the threshold of time?  
Who decides what is true and what is not true?  
We do, you and I  
You and I decide what is true and what is not true  
What shall be our guiding light?  
Happiness, I say happiness  
But in a world, I see people in a world of misery  
I see a world full of sorrow  
Why should we be happy?  
Tell me why should we be happy?  
We need a message from above  
Look over there, look over here  
I can see it, there is beauty in the world
