

New Blues

Tokyo Police Club

I've been low
I've been down
And I don't wanna go there anymore
The sky is white
The grass is gold
And I can't make my shadow out at all

They're not gonna tell us what we can and cannot do
They're not gonna feed us to the fire
I can't dance, like you can't sing
You know that's never gonna have us down

I got... new blues
Tonight... new blues

Battlecry
I can barely sleep
It happens every single time
It's in my heart
It's in my soul
For once I don't want it to be denied

No one's gonna tell us who we all wanna be
No one's gonna show us to the door
'Cause I've been low
I've been down
And I don't wanna go there anymore

I got... new blues
Livin'... new blues
(Hey)

Singin'... new blues
Hear my... my true blues

Yes I dare, yes I dare
Yes I... dare
Yes I dare, yes I dare
Yes I...
Yes I dare, yes I dare
Yes I... dare
Yes I dare, yes I dare
Yes I...
