Not Sick

Tokyo Police Club

Get comfortable, get unfrustrated Get healthy, and all the things that you want

I do, I do, I do not Fuck with the sure shot Not serious, about the way that you are

Carolina, happy belated Always golden, still the greatest

Not sensible, I wanna marry a dancer Vegetarian, can't stand to be wrong

I do, I do, I do not Fuck with the sure shot Not serious or taken seriously

Oh Carolina, happy belated Always golden, still the greatest

'cause it's there on the tip of your tongue, On the back of your hand, In the place that you had it last, You need to be careful

All in a single night, In a single dose, Is the best of the best for me, So what do you need, what do you need?

Is it a call for an emergency? So what is it like For your song on karaoke night?

Oh Carolina, happy belated Always golden, still the greatest
