

# One Of These Days

Tokyo Police Club

I don't wanna get by, getting by don't do the trick for me  
Cause I could get free doing things a little differently  
I don't wanna get made, getting made ain't making much of me  
I already got it all and it's all I need

All these things I know are true  
Don't wanna share them with no one but you  
So take my picture while I'm young  
Cause one of these days I'll ride into the sun

I don't wanna do good, doing good ain't good enough for me  
I wanna be a shining star everyone can see  
I don't wanna go down unless it's down in history  
And years from now you will remember me

All these things I know are true  
Don't wanna share them with no one but you  
So take my picture while I'm young  
Cause one of these days I'll ride into the sun

One of these days  
One of these days  
One of these days  
One of these days

All these things I know are true  
Don't wanna share them with no one but you  
So take my picture while I'm young  
Cause one of these days I'll ride into the sun

One of these days  
One of these days  
One of these days  
Yeah
